Dear Cum:

Abe spoke to Soony, and he is supposed to speak to you about the following matter. For fear he might forget I decided to write you. We want to find out if you will give us the April 29th date in Washington. Pompey has offered us the Polo Grounds, but we have to stay in Newark the next three weeks, and I am afraid the fans may get tired of us. Aside from that he wants to play a doubleheader. I hate to play a doubleheader in New York one Sunday and come home and only play a single game the next week. You know I still open with a single game. If we could play that Sunday in Washington we could go to Virginia that following week for a few days.

Please send me your dates in Washington. I may get a date in Detroit this year. If so I want to take The Grays if they can go. If you send me your dates I will know when you are open.

Please let me hear from you soon. You know this next month will be gone before we know it. I still feel a little doubtful about things, and won't be really satisfied until something is done about the manpower bill. However we can't wait until the last minute to do things.

I hope you are continuing to improve. Take it easy. The system won't stand but so much.

Very Truly Yours
